MUMMIES, BONES, AND ANCIENT PATHOGENS

A CONVERGENT MEETING OF ANCIENT DNA, MICROBIOLOGY, HISTORY
OF MEDICINE, PALEOPATHOLOGY, BIOTECHNOLOGY, AND ARCHEOLOGY

KEY SPEAKERS

SUSANNA SAWYER /

“Archaic Genomes, A Story Written in Neanderthal and Denisova DNA”

PROF. CARSTEN PUSCH /

“First insights into the metagenome of ancient Egyptian mummies using next generation sequencing”

PROF. FRANK RÜHLI /

“Evolutionary medicine: Ancient mummies and more...”

PROF. EUGENIA TOGNOTTI /

“Epidemics and Plagues in Sardinia from 15th to 20th Centuries”

PROF. RAFFAELLA BIANUCCI /

“Vector-borne diseases in ancient human remains”

PROF. HELEN DONOGHUE /

“Insights into Ancient Tuberculosis and Leprosy”

PROF. BERNARDINO FANTINI /

“The Convergence of Genomic Studies and Historical Analysis of Infectious Diseases: The Case of Black Death”

PROF. MARCO MILANESE /

“The Biological Archives of Alghero. Archeology’s questions, bio-history and technologies in the study of urban population remains (XIIIth-XVIIth century)”

PROF. GINO FORNACIARI /

“Cancer and Infectious Diseases: the Challenge of Soft Tissue Paleopathology”

SPONSORS

UNIVERSITY OF SASSARI /

* International PhD School in Biomolecular and Biotechnological Sciences

* Scuola di Dottorato, “Storia, Letterature e Cultura Mediterraneo”

* Dipartimento di Scienze Biomediche

* The Journal of Infection in Developing Countries

COMUNE DI STINTINO /

Sardinia, Italy

UNIVERSITY HEALTH NETWORK /

Toronto, Canada

IMMUNE DIAGNOSTICS AND RESEARCH /

Canada

SHANTOU UNIVERSITY MEDICAL SCHOOL /

Shantou, China
